Who is the Farm Service Agency?

The Farm Service Agency (FSA) of the U.S. Department of Agriculture (USDA) ensures the well-being of American agriculture, the environment and the American public through efficient and equitable administration of farm commodity programs; farm ownership, operating and emergency loans; conservation and environmental programs; emergency and disaster assistance; domestic and international food assistance and international export credit programs.

These programs provide a safety net to help farmers produce an adequate food supply, maintain viable operations, compete for export sales of commodities in the world marketplace, and contribute to the year-round availability of a variety of low-cost, safe, and nutritious foods.

FSA was established in 1994, when USDA was reorganized incorporating programs from the Agricultural Stabilization and Conservation Service, the Federal Crop Insurance Corporation (now a separate agency - the Risk Management Agency), and farm lending activities of the Farmers Home Administration.

We strive to provide equitable, friendly, effective, and efficient customer service and to enhance the ability of small, limited resource, beginning and socially disadvantaged family farmers to operate successfully.

Information is available on the Web at:
<http://www.fsa.usda.gov/ky/>

How do We Deliver Programs?

In Kentucky, FSA has 92 field offices, servicing 120 counties. FSA's programs are delivered through U.S. Department of Agriculture (USDA) Service Centers. The Kentucky FSA State Office is located in Lexington.

State Executive Director's Letter

Though its name has changed over the years, the Agency's relationship with farmers goes back to the 1930s. At that time, Congress set up a unique system under which Federal farm programs are administered locally. Farmers who are eligible to participate in these programs elect a three- to five-person county committee, which reviews county office operations and makes decisions on how to apply the programs. This grassroots approach gives farmers a much needed say in how Federal actions affect their communities and their individual operations. After several decades, it remains a cornerstone of FSA's efforts to preserve and promote American agriculture.

This report is designed to provide a more complete picture of the Farm Service Agency in Kentucky. We continue to have a presence in

ninety-two USDA Service Centers across the state. Through those offices we deliver the programs and benefits highlighted in this report.

Mission

Stabilizing farm income, helping farmers conserve land and water resources, providing credit to farmers and helping farm operations recover from the effects of disaster are the mission of the U.S. Department of Agriculture's Farm Service Agency (FSA).

USDA and our agency has served Kentucky farmers for nearly seventy-five years and even though our names has changed a few times, our dedication to service has not. For most farmers, the local USDA Service Center is their only point of contact for Farm Service Agency

Jeffery S. Hall
State Executive Director

programs. It is the people in our Service Centers and the members of our County Committees that build our strong tradition and will continue our commitment to Kentucky's farmers.

A handwritten signature in dark ink that reads "Jeffery S. Hall".

Meet the State Committee

Pictured left to right: C.A. "Ottie" Pantle; John S. Young, Chairman; Paul R. Hornback; William T. Jackson; Lori F. Hughes

FSA State Committees are responsible for the general direction and supervision of FSA programs in the state. The committee keeps farmers informed of Agency program activities and resolves appeals and complaints.

Members of the Kentucky FSA State Committee are:

- John S. Young, Chairman, from Herndon. His family has farmed locally since the 1830s. He owns and operates a 2,500 acre grain and cattle operation.

- Paul R. Hornback, from Shelbyville, farms tobacco, row crops, beef cattle, alfalfa hay and vegetables.

- Lori Foe Hughes, from Franklin, is a production facilitator for TLC farms, an 850-acre grain and commercial beef cattle operation.

- William T. Jackson, from Bowling Green, owns and operates Jackson's Orchard and Nursery, Inc., growing apples and peaches.

- C. A. "Ottie" Pantle, Jr., from Owensboro, grows vegetables and small fruits, burley and dark tobacco, soybeans, corn, hay, cattle and pasture.

GOAL

Assist agricultural producers and landowners in achieving a high level of stewardship of soil, water, air, and wildlife resources on America's farms and ranches while protecting the human and natural environment.

	FY2002	FY2003
Agricultural Conservation Program (ACP)	\$17,665.00	
Conservation Reserve Program (CRP)		
• Annual Rental Payments	\$21,203,668.61	\$21,964,301.58
• Cost-Share Payments	\$3,585,686.87	\$835,250.96
• Incentive Payments	\$3,301,742.40	\$597,535.03

Total	\$29,970,958.20	\$23,134,287.57

Green River Conservation Partnership

On May 30, 2002, U.S. Agriculture Secretary Ann Veneman participated in a ceremony to recognize USDA's participation in the conservation partnership on the Green River. Veneman and Senator Mitch McConnell were on hand to inaugurate a program that builds on the Green River Conservation Reserve Enhancement Program.

Veneman and McConnell also dedicated a \$1.2 million restoration project along the banks of the Green River. The joint effort between The Nature Conservancy and the U.S. Army Corps of Engineers, included the restoration of 1,000 feet of eroding riverbank.

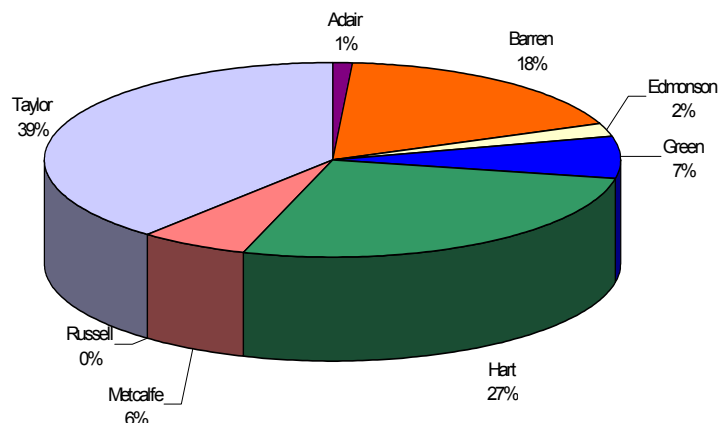

The initial year of the Green River CREP Project has been moderately successful. We currently have 123 contracts approved, totaling 2,721.6 acres. At the end of FY02, 68 contracts totaling 1,643.6 acres were in the process of being approved.

CREP is an enhanced version of the USDA Conservation Reserve Program (CRP). Landowners who take environmentally sensitive land out of crop production to plant specific types of vegetation will earn annual rental payments and cost-share incentives that exceed current CRP incentives.

USDA and the Commonwealth of Kentucky agreed to restore up to 100,000 acres on the Green River. The Kentucky Nature Conservancy was also a primary contributor, offering permanent easements to landowners in addition to CREP contracts. The Kentucky Department of Fish and Wildlife Resources was a contributor, offering wildlife biologists to assist landowners and promote their participation in the CREP.

CONSERVATION: Agricultural Conservation Program

The Agricultural Conservation Program (ACP) was authorized by the Soil Conservation and Domestic Allotment Act of 1936, as amended. Cost-share totaling \$17,665.00 was paid out in FY02 on ACP Long-Term Agreements.

<i>COUNTY</i>		<i>FY2002</i>
FLEMING	21 069	\$13,709.00
GRAVES	21 083	\$586.00

MARION	21 155	\$2,999.00
Total:		\$17,665.00

CONSERVATION: Conservation Reserve Program

The Food Security Act of 1985, as amended, authorized the Conservation Reserve Program (CRP). The program encourages farmers to plant long-term resource-conserving covers to improve soil, water and wildlife resources. FSA, through the Commodity Credit Corporation (CCC), makes available cost-share assistance in an amount equal to not more than 50 percent of the participant's cost in establishing approved practices. Contract duration is between 10 and 15 years.

CONSERVATION: Environmental Quality Incentive Program

The Environmental Quality Incentives Program (EQIP) provides a voluntary conservation program that promotes agricultural production and environmental quality as compatible national goals. EQIP offers financial and technical help to assist eligible participants install or implement structural and management practices on eligible agricultural land. EQIP may cost-share up to 75 percent of the costs of certain conservation practices. Incentive payments may be provided for up to three years to encourage producers to carry out management practices.

Commodity Loans	\$39,768,000.10	
Market Gains	\$2,928,714.47	\$4,192.26
Farm Storage Facility Loans	\$1,400,033.58	
Tobacco Loss Assistance Program	\$3,186,942.16	(\$571.30)
Total	\$169,551,661.07	\$106,320.93

Production Flexibility Program

Production Flexibility Contracts were established under the Agricultural Marketing Transition Act of 1996. The 1996 Act removed the link between income support payments and farm prices by providing production flexibility contracts, whereby producers on farms enrolled during the one-time signup receive annual fixed but declining production flexibility contract payments for FY 1996 through FY 2002. Payments are independent of farm prices and crop production. Contracts were established in 1996 for 58,368 farms in Kentucky.

Loan Deficiency Payments

Loan Deficiency Payments (LDPs) are payments made to producers who are eligible to obtain a loan, but agree to forgo obtaining a loan for a quantity of a commodity in exchange for a payment. Producers who have entered into a production flexibility contract and satisfy all loan eligibility requirements are eligible to obtain LDPs on wheat, corn, grain sorghum, barley, oats, upland cotton, and rice. Producers may obtain LDPs on any production of oilseeds whether or not they have entered into a production flexibility contract.

For a commodity to be eligible for an LDPs the producer must have beneficial interest in the commodity, in addition to meeting all eligibility requirements. Premiums and discounts are not considered when determining the LDP rate. LDP provisions are active when the alternative repayment rate for the commodity at a given location is less than the base loan rate at the same location.

Commodity Loans

The Farm Service Agency, on behalf of the Commodity Credit Corporation (CCC), administers nonrecourse marketing assistance loans for wheat, corn, grain sorghum, barley, oats, soybeans, minor oilseeds, rice, upland cotton, and ELS cotton. The purpose of the loans is to provide eligible producers with interim financing on their eligible production and facilitate the orderly distribution of loan-eligible commodities through the year.

Market Gains

Marketing assistance loans are nonrecourse in nature. That is, a producer has the option of delivering to CCC the quantity of a commodity pledged as collateral for a loan as full payment for that loan at loan maturity. Market loan repayment provisions are in effect for the 1996 through 2002 crops of each of the marketing assistance loan commodities, except ELS cotton. Market loan repayment provisions are active when the applicable alternative loan repayment rates, as determined by CCC, is less than the per-unit principal plus accrued interest, other charges, and in case of upland cotton only, per-unit storage costs, for a given outstanding loan.

Any portions of the interest and principal that do not have to be repaid because of the market loan repayment provisions (on a day when such provisions are active and a producer repays a loan) are waived. The portion of principal, if any, that is waived when a loan is repaid is referred to as a marketing loan gain for the producer.

Farm Storage Facility Loans

Under the Commodity Credit Corporation (CCC) Charter Act, USDA may make loans to producers to build or upgrade farm storage and handling facilities. Storage structures for commercial purposes (the storage of grain for others, whether paid or unpaid) are ineligible for loans, as are portable handling or drying equipment and portable or permanent weigh scales. The maximum term of the loan is 7 years.

Tobacco Loss Assistance Program

During FY2000, FSA provided direct payments through TLAP00 to Burley tobacco quota holders and producers to help them defray income losses in the 2000 crop year because of quota reductions. The statute was amended to provide that payments be made to person(s) who were otherwise eligible without regard to whether the quota was used for the production of tobacco during the 2000 year.

The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2002, provided for direct payments to growers and quota holders of fire-cured, dark air-cured, and Virginia sun-cured tobaccos.

Lamb Meat Adjustment Assistance Program

The Lamb Meat Adjustment Assistance Program is a 4-year program started in 2000 to help stabilize the lamb market. To be eligible, producers must purchase or retain a ewe lamb to expand the sheep herd from Aug. 1, 2001, through July 31, 2003.

Farm Loans

GOAL

Assist eligible individuals and families in becoming successful farmers and ranchers.

	Number	Portfolio
Outstanding Direct Loans		\$384,052,864
• Farm Ownership Loans	2,505	
• Operating Loans	4,713	
• Emergency Loans	1,097	
Outstanding Guaranteed Loans		\$189,469,064
• Farm Ownership Loans	838	
• Operating Loans	1,038	
Total		\$573,521,928

Direct Loans

Direct loans are made and serviced by FSA officials, who also provide borrowers with supervision and credit counseling. Farm Ownership, Operating and Emergency loans are the main types of loans available under the Direct program. FSA also finances youth projects under the Direct program and sets aside a percentage of funds for loans to minority applicants and beginning farmers.

Guaranteed Loans

FSA guarantees loans made by conventional agricultural lenders for up to 95 percent of the loan amount. All loans must meet certain qualifying criteria. Farmers interested in Guaranteed loans must apply to a conventional lender, which then arranges for the guarantee. FSA will guarantee loans for both Farm Ownership and Operating purposes. Like the Direct loan program, a percentage of Guaranteed loan funds is targeted to beginning farmers and ranchers and minority applicants.

Livestock Compensation Program

On September 19, 2002, Secretary Ann Veneman announced the Livestock Compensation Program (LCP). The purpose of the program was to provide assistance to certain livestock producers experiencing severe 2001 and 2002 crop year feed and pasture losses because of drought. LCP was available in counties named as primary counties on or after January 1, 2001, under a Secretarial disaster designation.

Eligible livestock included: beef cattle, dairy cattle, buffalo and beefalo when maintained on the same basis as beef cattle, sheep, and goats. The livestock must have been owned for a minimum of 90 calendar days and June 1, 2002, must be within the 90 calendar day ownership period.

Noninsured Assistance Program

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to eligible producers affected by natural disasters. This federally funded program covers noninsurable crop losses and planting prevented by disasters. An eligible producer is a landowner, tenant, or sharecropper who shares in the risk of producing an eligible crop.

Eligible crops include commercial crops and other agricultural commodities produced for food (including livestock feed) or fiber for which the catastrophic level of crop insurance is unavailable. Also eligible for NAP coverage are controlled-environment crops (mushroom and floriculture), specialty crops (honey and maple sap), and value loss crops (aquaculture, Christmas trees, ginseng, ornamental nursery, and turfgrass sod).

UNITED STATES DEPARTMENT OF AGRICULTURE

On May 13, 2002, President Bush signed the Farm Security and Rural Investment Act of 2002. The Farm Bill expands the farm income and commodity support programs of the Commodity Credit Corporation (CCC) to include the new counter-cyclical programs.

Title I - Commodity Programs

Income support for wheat, feed grains, upland cotton, rice, and oilseeds is provided through 3 programs:

- Direct payments
- Counter-cyclical payments
- Marketing loans.

Direct payments in the new Farm Bill replace the prior Production Flexibility Contract (PFC) payments and are based on historical program acreage and yields. They are set by law and do not vary with market prices or current plantings. Soybeans, other oilseeds, and peanuts are also made eligible for direct payments for the first time by the Farm Bill.

The Farm Bill enacted a new counter-cyclical payment program

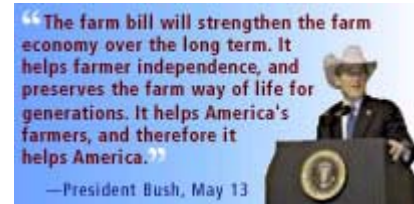

which will provide payments when market prices decline below specified target prices.

The Farm Bill increased dairy program outlays by establishing a Milk Income Loss Compensation program which provides payments equal to 45 percent of the difference between \$16.94 per hundredweight and the Class I milk price per hundredweight in Boston under the applicable Federal milk marketing order.

Title II - Conservation

The legislation emphasizes conservation on working land by increasing funding for the Environmental Quality Incentives Program and establishing a new Conservation Security Program, which pays producers to adopt or maintain practices that address resources of concern. Land retirement programs are expanded, placing particular emphasis on wetlands. Funding is expanded for farmland protection.

The Farm Bill extended CRP enrollment authority through 2007

and increased the current enrollment cap of 36.4 million acres by 2.8 million to a total of 39.2 million acres.

The Grassland Reserve Program was authorized to assist landowners in restoring and protecting grassland by enrolling up to 2 million acres under easement or long-term rental agreements.

Title V - Credit

Farm Service Agency (FSA) farm loan eligibility rules are relaxed to make more borrowers eligible for Federal farm credit assistance. Lending rules for beginning farmer and ranchers are modified to increase eligibility and provide more benefits. FSA lending procedures are changed to streamline delivery of farm loan programs.

Milk Income Loss Contract Program

The Milk Income Loss Contract (MILC) Program was authorized by the 2002 Farm Bill to financially compensate dairy producers when domestic milk prices fall below a specified level. Eligible dairy producers are those who produced milk in any state and marketed milk commercially beginning December 1, 2001 through September 30, 2005. Dairy producers may receive payments on milk marketed from December 1, 2001 through the last day of the month preceding the month the operation's MILC contract is submitted. Transition payments are paid in a lump sum.

Outreach

FSA is in a unique position to support the diverse array of agricultural producers in Kentucky, considering both diversification and development of new agricultural enterprises. We continue to work through our local employees, farmer elected committees, partners, stakeholders, state and local community-based organizations, underserved groups (including women, minorities and limited resource clients), state and local governments, other federal agencies and local communities to provide service to the people of the Commonwealth.

Outreach Working Groups

- Kentucky Migrant Labor Roundtable: FSA is a participant in the Kentucky Migrant Labor Roundtable. The purpose of the group is to address issues facing the Commonwealth related to migrant laborers.

- Women in Agriculture: FSA employees participates in leadership planning roles for the state-wide, regional, and local events sponsored by Kentucky Women in Agriculture. FSA's objective is to inform women involved in agriculture about FSA commodity and conservation program benefits and loan programs.

- Small Farms Program: FSA works closely with the Cooperative Extension Service at the University of Kentucky and Kentucky State University to provide technical assistance to Kentucky's farmers. The Small Farms Program and Small Farmer Outreach Training and Technical Assistance Programs at Kentucky State University are targeted to small and part-time farmers.

Outreach to Students

Kentucky FSA regularly participates in the Summer Intern Program through Kentucky State University. The State Office has a Student Trainee Agricultural Program Specialists through the USDA Student Career Experience Program.

Career Days: FSA participates in career days at local schools, the University of Kentucky College of Agriculture, and Kentucky State University.

Small Limited Resource Minority Farmer Conference

FSA contributed \$5,000 to support a Small Limited Resource Minority Farmer Conference held by the Kentucky USDA Outreach Council in conjunction with Kentucky State University. The 2-day conference was held on November 19-20, 2002. The Kentucky Department of Agriculture also participated in the conference.
